Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Executive Summary

The Survey of Income and Labour Dynamics (SLID) interview is conducted using computer-assisted interviewing (CAI). CAI is paperless interviewing. This document is therefore a written approximation of the CAI interview, or the questionnaire.

In previous years, SLID conducted a Labour interview each January and a separate Income interview in May. In 2005 (reference year 2004) the two interviews were combined and collected in one interview in January.

A labour and income interview is collected for all respondents 16 years of age and over. Respondents have the option of answering income questions during the interview, or of giving Statistics Canada permission to use their income tax records.

In January 2005, data was collected for reference year 2004 from panels 3 and 4. Panel 3, in its sixth and final year, consisted of approximately 17,000 households and panel 4, in its third year, also consisted of approximately 17,000 households.

This document outlines the structure of the January 2005 Labour and Income interview (for the 2004 reference year) including question wording, possible responses, and flows of questions.

1. Introduction

Every January, the Survey of Labour and Income Dynamics (SLID) interview is conducted using computer-assisted interviewing (CAI). CAI is paperless interviewing. This document is therefore a written approximation of the CAI interview, or the questionnaire. The CAI process is as follows:
(a) A question appearing on the computer screen is read aloud to the respondent.
(b) The respondent's answer is directly entered by the interviewer.
(c) Based on the answer given, and/or age or other flow criterion, the computer determines the next question to be asked and displays it on the screen.

This research paper presents the content of the 2005 Labour and Income interview[1] (for the 2004 reference year) including question wording, possible responses, and flows of questions.

2. What's new

Both the Labour and Income interviews are collected during the January interview. There will no longer be Income interviews conducted in May.

Questions which have F1 Help available to the interviewers, are preceded with a question mark in this document.

PT_Q001
This question will appear at the end of the Labour and Income component for each respondent (excluding members of households in the final wave of a panel). It was added to request the respondents' permission to use the provincial driver's licence files, to help find their new address or telephone number in the event that we have difficulty reaching them for future interviews. The information collected will be provided as a tracing source in the tracing component of the survey.

New labour questions
ED_Q022A, ED_Q033A, ED_Q058A, ED_Q083A, ED_Q108A, ED_Q134, ED_Q182

1. The household composition, demographic and housing questions are presented in a separate document entitled "Entry exit component interview questionnaire for reference year 2004".

The question asking whether a respondent was a full-time or part-time student, which was removed from the reference year 2002 application, was added back into the application.

Modified labour questions

DA_C005

There is a flow change for respondents who answer "No" to EX_Q001 (new Labour respondents who report that they did not work in the reference year). The jobless spell will be set to 'all year' and the application will flow to DA_Q020 if they also answered "Yes" to EX_Q005 (have ever worked) to ask them when they last worked, before skipping to the SE questions.

There is a flow change if a new job is reported and the response to DA_Q001 is "Working at a job or business or self employed" (the respondent will not be asked if he worked during the reference year, DA_Q015).

DA_C035, DA_C040

If the response to DA_N035 or DA_Q040 is "Don't know" or "Refuse", the name of the employer will be set to "Unknown Employer". In previous collections the employer name was set to "this employer" which was confusing if the respondent had more than one job.

DA_Q065

An interviewer note was added to probe for the respondent's best estimate of the year the respondent started working for the employer.

In past years a "Don't know" or "Refuse" response was not allowed and a hard edit popped up. This has been changed so that a "Don't know" or "Refuse" response may be entered and the application will flow to DA_Q085 (instead of the hard edit DA_E065, which has been deleted).

DA_Q090/DA_N120

When a valid date is entered in DA_Q090 and the response to DA_Q085 is "Don't know" or "Refuse", the start date in DA_N120 will be set to January 1, reference year.

DA_Q120

A wording change was made to the question in French to make it more consistent

with wording in English.

CH_Q011

The response categories have been changed to "Yes" and "No" answers (from "Confirmed" and "Not confirmed") to better match the normal response that a respondent would normally provide. This will eliminate the burden on the interviewer to convert the respondent's reply before choosing the correct response on the screen.

If the response to this question is "No", the application flows to CH_Q017 (instead of CH_N015)

CH_Q017 (previously CH_N015)

This used to be an interviewer note which came up on the screen if a respondent answered "Not confirmed" (or No) to CH_Q011. The interviewer was responsible for indicating the change in the respondent's class of worker. This is now a question which is read out loud to the respondent, thus making the interviewer's job easier.

CH_Q160 and CH_Q205

A wording change was made to the question to ensure that the respondent excludes overtime hours from their response.

CH_Q185, CH_Q205, CH_Q210, CH_Q215

Flow changes were made for "No", "Don't know" and "Refuse" responses if the person was a paid worker and had the same employer as the previous year. If they reported a wage last year: and if the interview is non-proxy they will go to CH_Q240; and if the interview is proxy they will go to CH_Q251. If they did not report a wage last year they will go to CH_Q245.

CH_Q245

A wording change was made to the question so that it now uses pre-fills. If they worked for the employer at the beginning of the reference year the question will contain the words "at the beginning". If they started working part way through the year the month specified in CH_Q215 will be used in the question.

CH_E370, CH_E415

These edits were changed to Hard edits so that the months entered in CH_Q370 and CH_Q415 can only be within the start and end dates of the absence.

CO_C001

If the Preliminary interview is asked, the flow logic for the CO (Compensation) questions will depend on the response to EX_Q005.

SP_Q025

A flow change was made to skip question SP_Q030 and go to the Education questions, if response to SP_Q025 is "Don't know" or "Refuse".

ED_Q022, ED_Q033, ED_Q058, ED_Q083, ED_Q108, ED_Q133, ED_N175, ED_N180

These questions now flow to a new full time, part time question (ED_Q022A, ED_Q033A, ED_Q058A, ED_Q083A, ED_Q108A, ED_Q134, ED_Q182)

ED_C024, C042, C067, C092, C117, C146, C172, C350

Logic has been added to include DA_Q030 and DA_Q040 for determining that respondents worked and thus should be asked if their employer provided support during their course.

DI_C033, DI_Q035, DI_Q045, DI_Q050, DI_Q055, DI_Q060, DI_Q065

A flow change was made to go to IN_C001 logic, due to the merger of the Labour and Income interviews.

Deleted Labour questions

DA_E065

This edit has been deleted. DA_Q065 has been modified so that a "Don't know" or "Refuse" response is accepted (so the edit is no longer required).

EN_R001, EN_Q005, EN_Q010

The EN questions have been deleted for the Labour and Income merged application. Permission to use tax records will be asked at the beginning of the Income questions.

New Income questions

IN_Q145

This question, on the amount of income tax paid, was deleted from the questionnaire in the May 2000 collection (for reference year 1999). It has been reinstated in SLID to maintain consistency both with the 2006 Census question and with the information that is obtained from the tax files of persons who give us permission to access their data from the Canada Revenue Agency files.

Modified Income questions

IN_C001, IN_Q005, IN_C002, IN_C010, IN_Q190

A flow change was made to go to the new PT_Q001 question (permission to access driver's licence files).

IN_Q015

New text was added to the question to ease the flow from the labour interview into the income portion of the interview.

IN_Q015, IN_Q020, IN_Q025, IN_Q030, IN_Q035, IN_Q040, IN_Q045, IN_Q050, IN_Q060, IN_Q065, IN_Q070, IN_Q075, IN_Q080, IN_Q085, IN_Q090, IN_Q095, IN_Q100, IN_Q105, IN_Q110, IN_Q115, IN_Q120, IN_Q125

The application has been modified so that an amount must be entered for each income source before moving to the next question. If the respondent did not receive income from a particular source, the interviewer will be forced to enter 0 instead of simply hitting the <Enter> key as was allowed in previous years. (Don't know and Refuse are still acceptable responses.) The minimum soft range edits have been modified to accept a 0 response without popping the edits.

IN_Q015, IN_Q070, IN_Q075, IN_Q080, IN_C002, IN_C005, IN_C010

These questions will now read flags set during the Labour portion of the interview instead of flags sent out on the input sample file.

IN_Q140

Total income is now the calculated sum of items IN_Q015 to IN_Q125 (items IN_Q130 & IN_Q135 were deleted).

A flow change was made for "Yes" responses to go to the new question on

income tax paid, IN_Q145.

A text prefill has been added to the IN_Q140 question wording, for respondents who reported receiving an amount for support payments in SP_Q005, which says that the amount is not included in the total income amount calculated in IN_Q140.

IN_Q141, IN_E143

A flow change was made to go to the new question on income tax paid, IN_Q145.

IN_C002

Flow changes were made to skip deleted questions due to the merging of the Labour and Income applications.

IN_Q160, IN_Q190

The application has been modified so that an amount must be entered before moving to the next question. (Don't know and Refuse are still acceptable responses.)

Deleted Income questions

PR_N001

The proxy question is asked at the beginning of the Labour questions and has been dropped from the Income questions due to the merging of the two applications.

IN_Q120

Income from support payments (alimony, child support) is already collected in SP_Q005 in the Labour module of the questionnaire.

IN_Q130, IN_N130, IN_N130S, IN_Q135, IN_N135, IN_N135S

The extra income values that were being picked up by these questions in the SLID income interview were quite minimal and no longer warrant the extra interview and processing time. Most people who have anything to report for "Other income" just have one item to report. This is also the easiest way to avoid having interviewers enter zero for all three items as a result of the new restriction that they have to put something into the field in order to continue to the next question. Now, they will just have one set of questions on "Other income" (IN_Q125, IN_N125, IN_N125S).

IN_Q150, IN_Q155, IN_Q165, IN_Q180, IN_Q185
These questions are asked in the Labour interview and do not need to be repeated in the Income interview as it is now conducted during the same collection period.

3. How to read this document

Question numbers: For each section, the question numbers refer to the actual numbers used in the software and which appear on an interviewer's computer screen. **Bold** text is read, as worded, by the interviewer. Instructions for the interviewer are preceded by the word, "INTERVIEWER" and are not read out loud to the respondent.

Naming conventions: Naming conventions conform to the standards for Statistics Canada social surveys.

Questions with:
- Q (e.g. DA_Q065) = question
- C (e.g. ED_C001) = internal check
- N (e.g. ED_N045) = interviewer instructions
- E (e.g. DA_E080) = interviewer instruction edit
- ? (e.g. ?DA_Q001) = F1 help available

Pre-fill items: Shown in square brackets [ ] are items specific to each respondent's interview. The software adds the relevant information into the question, making it simply a matter of reading for the interviewer. Pre-fill items include:

[respondent] - This is the first and last name of the household member to whom the questions refer. This is not necessarily the person who is talking to the interviewer.

[fname] - This is the first name of the household member to whom the questions refer. This is not necessarily the person who is talking to the interviewer

[reference year] - This is the year **for which** the information is collected (2004).

[previous reference year] – This is the year prior to the reference year (2003).

[current year] - This is the year **during which** the information is collected (2005).

[employer] - This is the employer referred to in the question. Questions may be asked for a maximum of six employers. In each case, the specific employer's name is placed in the pre-fill item.

[class of worker] - Indicates whether the respondent is a paid worker, self-employed or working in a family business without pay.

[type of work] - This is a short description of the respondent's occupation or type of work performed, at last contact.

[industry] - This is a description of the industry of the employer as provided by the respondent.

[start date] and [end date] - Depending on the question, these refer to either the start and end dates of a specific job, of an unpaid absence, or a jobless spell.

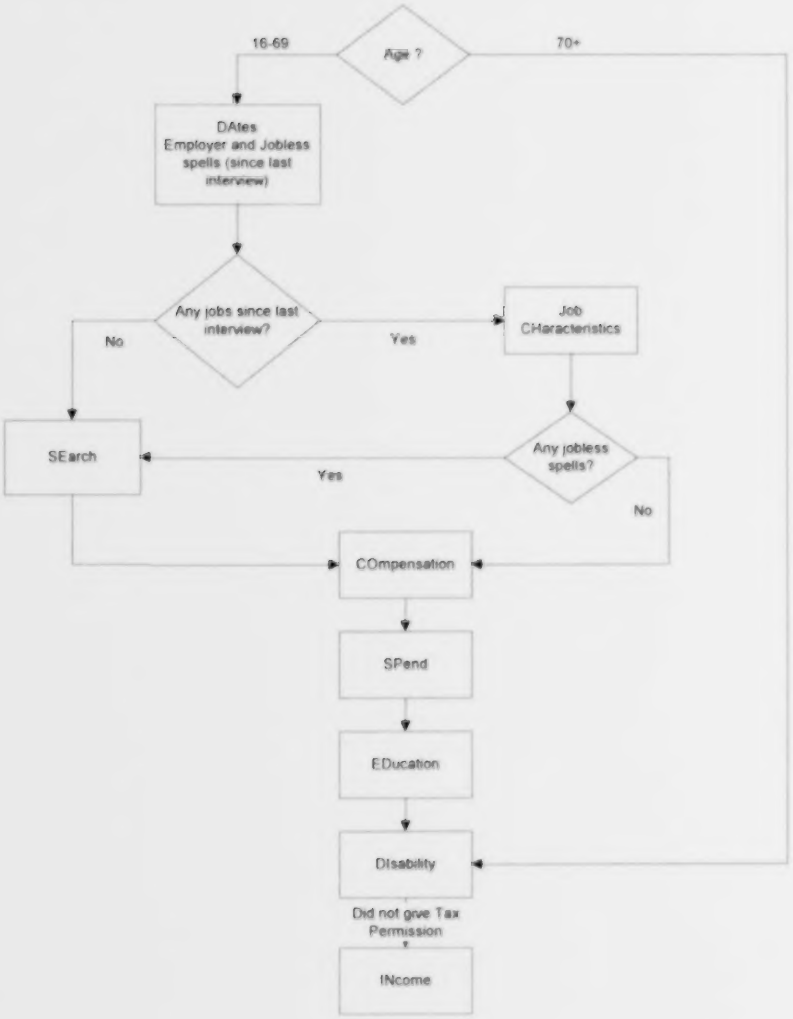
[prefill from Empl.oldwage and Empl.oldwageu] - Wage reported previous year for respondent.

Ranges: Hard and soft ranges are specified for some of the questions. The hard range gives the highest and lowest acceptable response values. For example, in CH_Q110 (number of employees supervised directly) a hard range of 1 - 995 exits. If the interviewer tries to enter a number greater than 995, the system will not accept this.

The soft range specifies an upper limit which, if exceeded, will result in a probe to confirm that the amount entered is correct. If it is correct, the interviewer can enter it as long as it does not exceed the hard range. For example, if the respondent states that the number of people supervised was 65, this exceeds the soft range of > 60. If confirmed as correct, the interviewer can enter this amount as it does not exceed the 995 upper limit of the hard range.

Dates: All dates are in DD/MM/YYYY format unless otherwise specified.

General Flow of the Labour and Income Interview



4. Content

The general flow of the Labour and Income interview is given in the flowchart on the previous page.

An initial divergence based on age can be seen. Those aged 16-69 are asked the labour series of questions, while those 70 years and over flow to DA_Q001 (main activity) and then to the Disability (DI) module. For the former, if the respondent worked since the last interview, the characteristics of up to six jobs are asked, followed by identification of jobless spells. If a jobless spell occurred, the respondent is asked the Search (SE) series of questions. These are also asked for respondents who have not worked since the last Labour interview. The Compensation (CO) questions are then asked of all respondents, as are subsequent modules on Spend (SP), Education (ED) and Disability (DI). Income (IN) questions are only asked if the respondent does not give Statistics Canada permission to access their Canada Revenue Agency tax files.

The Labour and Income interview is comprised of eight main modules as outlined in the following table.

Modules of the Labour and Income survey and major components

DA	CH	SE	CO	SP	ED	DI	IN
Job Tenure	General Job Characteristics	Jobless Spells	Receipt of Employment Insurance	Receipt of Support Payments	Type of Educational Establishment	Identifies Disabilities/ Activity Limitations	Amounts of income from various sources
Reasons for Leaving Job	Supervisory/ Managerial Responsibilities	Job Search Activities	Receipt of Workers' Compensation	Payment of Support	Months/Weeks/ Hours Attended School	Impact of Condition on Amount and/or the Ability to Work	Amount of employer pension plan contributions
	Work Schedule		Receipt of Social Assistance or Welfare	Payments for Child Care	Information on Any Diplomas, Certificates or Degrees Earned		Amount paid for professional membership dues or malpractice premiums
	Wages & Fringe Benefits				Information on the Most Important Work-related Course Taken		Amount paid in union dues
	Absences from Work for 1 or More Weeks						

DA: Dates -- Employer start and end dates are collected for up to six employers during the year. This module has an employer roster (a list of all employers the person worked for during the year), and a ghost employer roster (a list of former employers reported in previous interviews). Feeding back of employer names from the previous January also occurs in this module. For a person on unpaid absence at the beginning of last January, the absence as well as the employer name is fed back.

Regarding "Don't know's" in employer dates: To collect information on an employer, the interviewer must be able to establish the date the person started working for that employer. If the interviewer is able to establish the month the job began, but not the day, the computer will set the day to 01 and the employer will be accepted. Similarly, if the interviewer can establish the month the job ended, but not the day, the computer will set the day to 28. However, if the interviewer cannot get an estimate of the month in which the job started or ended, it is impossible to proceed with that employer, and it is deleted from the roster. If the respondent reports no employers during the past year, the respondent skips to SE.

The following classification of jobs is used in DA:

Job Type 1 - a job at which the respondent was working on December 31st of the previous reference year.

Job Type 2 - a job at which the respondent was not working on December 31st of the previous reference year but to which he/she was attached (i.e. on temporary lay-off or away on an absence of more than a week).

Job Type 3 - a job not previously identified in the survey, generally one at which the respondent started working during the reference year.

Jobless spells are derived from the dates of employment.

Employment with each employer is characterized as ended or un-ended, referring to whether the respondent was working for the employer at the end of the reference year. If a job type 1 is denied, the job is deleted

without an array of probing questions. For job type 2, one probing question is asked if the job is denied.

CH: Characteristics – This will be collected for up to six employers per respondent. For job type 1 and 2, information on employer name, and type of work performed is fed back to the respondent. A change in occupation and wages can be recorded, as can one change in work schedule for job types 1 and 2. This allows greater precision in deriving implicit hourly wage rates or total annual earnings from an employer (total annual earnings from all employers will also be collected in May in the income interview). The number of absences of one week or more (except paid vacation), and details on the first and last absences with each employer are also recorded.

SE: Search -- If there was a jobless spell identified in 'DA' or if the respondent did not work at any time in the year, the flow will be directed to this module. For each jobless spell, there are a series of questions on job search, and the desire for employment. For people who begin the year with a jobless spell, the search status in January is fed back to the respondent only if they were looking for work.

CO: Compensation – This module asks questions regarding receipt of Employment Insurance, Social Assistance, or Workers' Compensation. This information is collected for everyone, independently of any reported job absences and jobless spells. The information which is collected includes:

- receipt of Employment Insurance, Workers Compensation, and Social Assistance during reference year;
- months received.

SP: Spend – This module requests information on support payments, both paid and received. Also, there are questions on child care expenses. The first time SLID collected this type of information was for reference year 1999.

ED: Education – This module on formal education includes educational activity during the year, and degrees, certificates or diplomas obtained. If

respondents attended more than one type of educational institution, several flows will result providing information also on field of study, program length, and time attended (months, weeks, hours). By asking question ED_Q150 about other degrees, certificates or diplomas received during the reference year, this identifies situations where a respondent received a degree in the reference year although the program finished the previous year. In this section we have added a few questions on the most important work-related course taken by the respondent.

DI: Disability – This module contains questions concerning disability, which have been modified in conjunction with questions that were asked in the 2001 Census. These disability questions are asked of all respondents. The basic structure of the questions concern disability at home, at work and in other activities, but a distinction is made in the questions asked for those who worked versus those who didn't work in the reference year. No questions are asked about disability at work for respondents aged 70+.

IN: Income – This module asks for the amounts of income received from various sources. Everyone age 16 and over receive thses questions unless they give Statistics Canada permission to access their Canada Revenue Agency tax records. Edits are programmed using the information collected in the Labour portion of the suvey to remind respondents that they had reported being employed or receiving employment insurance, social assistance or workers' compensation, to ensure that the amounts are entered. Flags are also set during the Labour interview so that amounts are collected where applicable for: employer pension plan contributions; professional membership dues or malpractice insurance premium payments; and union dues.

5.6 ED Module

The EDUC module basically covers two types of training activities. The first series of questions (ED_Q021 to ED_Q190) deals with "training programs". A program is a series of courses offered by, through or under the auspices of an educational institution (private or public) that are used as credits towards a degree, diploma or certificate.

The education module captures all institutions attended by the respondent during the reference year and all degrees, certificates or diplomas completed. This results in a series of flows for each type of institution attended (ED_Q020). For example: if a respondent attended high school and university, we would ask ED_Q021 to ED_Q026 and ED_Q130 to ED_Q175. If another attended community college and then a business or commercial school we would ask ED_Q030 to ED_Q070.

If ED_Q005 = "Yes" (attended an educational institution in the reference year), and flows for attending all institutions have been completed, ED_Q150 asks about any other degrees, certificates or diplomas received during the reference year. This identifies situations where a respondent received a degree in the reference year although the program finished the previous year.

Without ED_Q150, these "degrees" would not be recorded. Similarly, if ED_Q005 = "No" then ED_Q185 will also pick up these hidden "degrees", that is degrees or certificates awarded after the year that the respondent attended the institution.

The second series of questions (ED_Q300 to ED_Q350) deals with job-related "training courses". For the purpose of the questionnaire, training activities such as courses, seminars, workshops, conferences and forums are covered by these questions.

6.1. Income edits

Soft edits (other than the edits appearing in the questions above) were used during data collection.

Income Amount check

This edit was used during data collection to check the income source amounts entered by the interviewer.

When the amounts entered in the computer are outside the predetermined range, one of two error messages pop up: **"Amount seems too high"** or **"Amount seems too low"**.

These messages appear when the amounts entered are outside the soft ranges shown in the questions above, which is determined using data collected in last year's SLID income interview. These ranges exclude approximately 5% of amounts below or above the selected limits.

The interviewer has the option to either 'Suppress' to confirm the value or 'Close' or 'Goto' to enter a new value.
